The British Association for the
Study of Community Dentistry

Dear Colleague,

**Re: British Association for the Study of Community Dentistry BASCD
Autumn Conference – Thursday, 26th and Friday, 27th November 2009**

**Theme: Reflection on Reforms – *Implementing and Managing Change:
Achievements and Outcomes in Practice***

I am delighted to invite you to the 2009 Autumn Conference at the Royal Institute of British Architects, London, on the 26th and 27th November 2009. The Conference I am organising presents an opportunity to build on the theme of the Presidential Meeting in March. You will hear about experiences, challenges and lessons learned with examples from the field.

The context for this Conference is the considerable change and reform within the public sector and dentistry in the last few years. NHS organisations and structures have now strengthened commissioning and public health roles and there have been major changes within dentistry.

This Conference is an opportunity to learn from colleagues who have been innovative and groundbreaking.

I am delighted to welcome Dame Margaret Seward to present the Roger Anderson prize and I do hope she will take the opportunity to share some reflections.

I look forward to welcoming you to London.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Colette Bridgman'.
