

BASCD Spring Scientific Meeting 2020

**Addressing Inequalities:
Celebrating Improvement
BASCD 2020**

2nd - 3rd April 2020
City Hall, Cardiff

Introduction

The theme for the #BASCD2020 conferences is Addressing Inequalities, Celebrating Improvement and considers the evidence on how best to further improve. The Spring conference places the spotlight on children, whilst the Autumn conference centres on vulnerable older adults. These conferences reflect much of my career in dental public health and celebrate the benefits of the reality, not the rhetoric, of multi-agency working to affect the wider determinants of health.

I look forward to welcoming you in Cardiff, often found at the top of the lists of best cities in the UK, because of its proximity to beautiful scenery and central business locations, it is compact but has all the benefits of a capital city, with thriving arts, culture and sports as well as warm and friendly people.

BASCD President Elect
Maria Morgan

Aim:

To reflect on the role of those working to promote dental health in addressing oral health inequalities in children, celebrating improvement and considering best practice to further improve.

Learning objectives:

By the end of the conference participants will:

- Have a greater awareness of UK national oral health improvement initiatives such as Designed to Smile, Child Smile and the Children's Oral Health Improvement Board (COHIB)
- Learn about how all members of the dental (and wider) team can contribute to the (oral) health inequalities agenda
#STRONGERTOGETHER
- Learn about the practicalities of tackling the wider determinants of health by working in partnership with schools, nurseries, health visiting, postgraduate education/general practice to deliver (oral) health improvement goals in children
- Have increased knowledge of addressing inequalities in oral health - a European perspective
- Have greater awareness of 'Health in all Policies'
- Be able to get more involved in the core work of BASCD
#weareBASCD

The anticipated GDC Development outcome of this meeting is category **A** **B**
